Delivering Technology

ABOUT

As a Malaysia system and website developer, ZERP System Sdn Bhd will assist your good company to provide one stop solution for information technology.
Our wide experience in various fields of manufacturing, shipping, port, engineering and other services, together with our excellence team in system analyst, multimedia, networking and software engineering will ensure our products and services at good quality level and deliver on time.

The founding members of the company Zulkarnain bin Amir Husain and Omar Khayam bin Abdullah had ventured out on their own to establish ZERP System Sdn Bhd on March 17th 2016.

Their combination of experiences both in the information technology are the advantage to having the right disposition and business acumen to experience a steady development, growing from strength to strength. Dedication, enchanted by their service oriented natures and reinforced by a result-driven attitude has attributed well towards the business success of the company.

Nowadays, information technology is one of the important things we must have at our company to succeed. We do have our standard products such as accounting system, payroll system, website and others system and our advantage is we can customize system according to customer requirement.

We believe various types of industries and services need customization system to ensure information technology applied smoothly and efficiently.
We are here with local Malaysian programmer, designer, engineer and network team lead by Zulkarnain bin Amir Husain committed for customer satisfaction. Our products and services with affordable price, good quality and deliver on time will assist your good company information technology growth.

Under the watchful supervision and sagacious guidance of management, this young team has in itself grown to become the backbone of the company and shouldering effectively the responsibilities of achieving the company corporate mission and set out objective.

This growth has come about through hard work and determination and indeed it is our customers satisfactions that drive us on to strive for even further growth and plan extensively to reach a long term goal for global business, Insha Allah.
